

VolumeControl

```
graph BT; DisplayControl --> VolumeControl
```

A UML diagram showing a directed association between two classes. The class 'VolumeControl' is represented by a gray rectangular box at the top. The class 'DisplayControl' is represented by a white rectangular box at the bottom. A solid blue arrow points vertically from the top edge of the 'DisplayControl' box to the bottom edge of the 'VolumeControl' box, indicating a directed relationship from 'DisplayControl' to 'VolumeControl'.
